

ATMP Sweden conference 2020

The Centre for Advanced Therapy Medical Products (CAMP) and Swelife-ATMP are pleased to invite you to sponsor the 3rd Annual ATMP Sweden meeting which will be held; **Wednesday 1st April-Friday 3rd April, Södertorn Aula, Alfred Nobels väg 1, Flemingsberg, Stockholm.**

About the Meeting

The conference brings together the Swedish network of academics, clinicians and industry within the ATMP field to stimulate information transfer and collaboration towards innovative research and towards strengthening of the ATMP field for novel patient solutions.

Why sponsor

The development of ATMPs requires close collaboration between academics, clinicians and industry, as well as good communications with regulatory authorities. This conference is the primary event of this industry in Sweden so sponsorship of this meeting gives the greatest exposure to these potential collaborators. The conference has several sponsorship packages available.

National ATMP conference 2020

Sponsorship Conditions

The number of packages available at each level is unlimited. Packages are not negotiable. Sponsors are responsible for providing any material, information or artwork within the time frames specified by sponsor contact. Cancellations must be advised in writing before the 20th March 2020. In this situation, refund will be provided but company will be charged a 25% administration fee. After 16th March 2020, no refunds are applicable. To guarantee choice of booth position sponsorship must be confirmed by January 31, 2020.

The Program

Exhibitor space is open to registrants from 16:00 on the 1st of April till 13:00 the 3rd of April. The 1st of April food and drinks will be provided in the exhibitor space until 21:00. The 2nd of April will be a full day of seminars and the 3rd April a half day finishing at lunch time. The program aims to exhibit an overview on all the key aspects involved in the development, manufacturing, commercialization and patient care around ATMPs. The 2nd of April there will be coffee break and lunch opportunities for exhibiting as well as drinks from 17:00-19:00 in the exhibition space. The 3rd of April the seminars span from 8:00-12:00 with a coffee break for exhibiting, lunch will not be offered. Invited speakers, including Paula Salmikangas (NDA), John Rasko (ISCT President), Henrik Semb (DanStem), Laurence Cooper (MD Anderson), Antonio Bertoletti (Duke-NUS Medical School) and Hildegard Büning (ESGCT) are amongst the list of prominent ATMP industry leaders who will be presenting their work. The program aims to facilitate networking opportunities for both sponsors and delegates.

About CAMP and Swelife-ATMP

CAMP and Swelife-ATMP are national networks established for the promotion of the growth of the ATMP industry in Sweden. CAMP (2017-2023) focuses on the 'practical' aspects of development, generating new technologies and facilities towards advances in process development, GMP manufacture and product logistics. Swelife-ATMP (2017-2020) focuses on the 'strategic' aspects, advancing knowledge and development in regulation, legal/ethical aspects, healthcare/business models and communications. Together the projects use diverse knowledge and expertise to create novel solutions for the accelerated progress of ATMP development in Sweden. Both projects welcome new collaborators and partners in these national initiatives.

The Venue

The 2020 National Conference will be held in Södertörn Högskola Aula, Flemingsberg, Stockholm. The conference centre is accessible by commuter rail (pendeltåg) from Flemingsberg Station or car parking for registrants is available at request. The venue seats 700 in lecture style format and has several spacious breakout areas over 2 floors, providing an ideal environment for discussion and networking between sessions.
